

# **Influence of junk food and processed food on different aspects**

**Ada Kusyk, Ania Skorzyńska, Maja Własiuk, Zosia Rzepkowska, Zuzia Tomaszewska**

ALL THIS JUNK FOOD YOU EAT? IT'S MAINLY CATTLE. LIVESTOCK FARM HOUSES ARE RESPONSIBLE FOR THE LARGEST AMOUNT OF GREENHOUSE GAS EMISSIONS. THIS MAY SEEM LIKE AN ABSTRACTION BECAUSE YOU CAN'T SEE IT, BUT LOOK AT THIS MOUNTAIN OF GARBAGE. I'M ASSUMING THIS IS THE WASTE OF JUST ONE FAMILY.

- UNFIT BODY THUS LACK OF SPORTS
- PROBLEM WITH BLOOD VESSELS, HIGH BLOOD PRESSURE, FLUID RETENTION
- CONSTIPATION, KIDNEY AND LIVER MALFUNCTIONING DUE TO FAT AND CHOLESTEROL.
- JUNK FOOD ALSO AFFECTS THE BONES; THERE CAN BE OSTEOPOROSIS OR TOOTH DECAY.
- INCREASED CHANCE OF HAVING A PROSTATE OR BREAST CANCER

THE END.
