price of paint: 93,78pln

TOTAL COSTS: 268,12PLN

- 1) On Monday I wrote down all a phrases, vocabulary any patterns, all thing I through will be usefull in project. I created a design outline and thought about what I could put in it to make it more interesting
- 2) On Tuesday I started doing sketch, I took measurements and I laid out the entire project plan.
- 3) On Wednesday I chose the paint, I measure how much foil I need to cover up furniture and I continued writing the report.
- 4) On Thursday I did presentation, I refined the final product. I find all the materials on the website of shop, and sum up all the costs.
