

CHRISTIAN BALE

Christian Bale is an famous british actor, who absolutely has rights to be an cultural icon.

He was starting his acting career by paying in TV comercials as a kid.

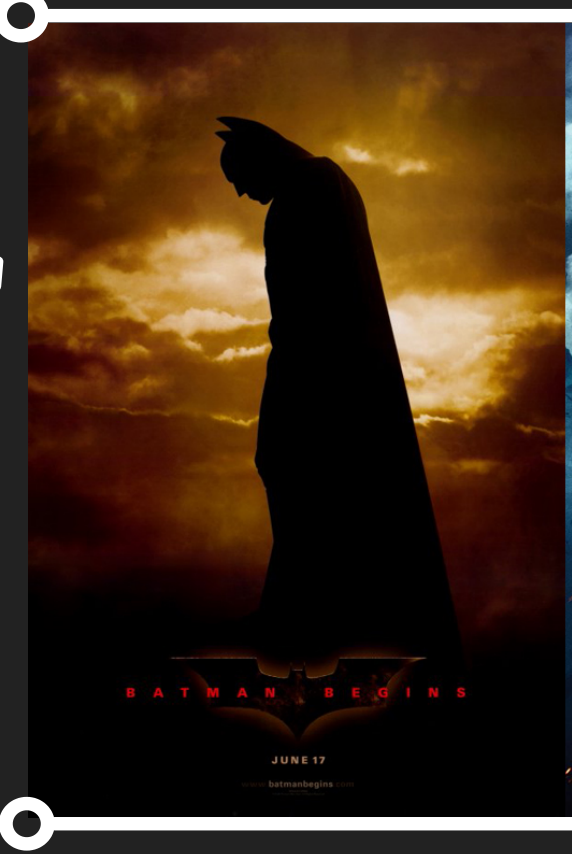

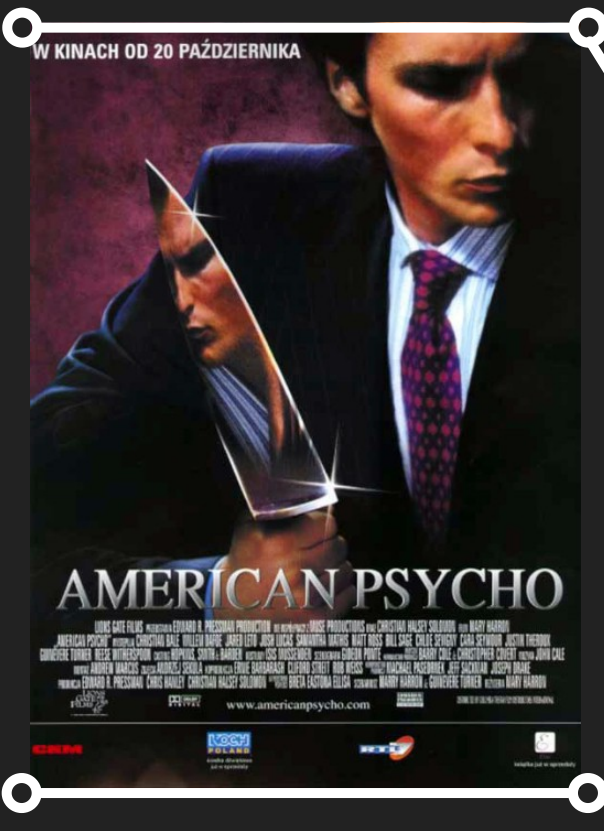

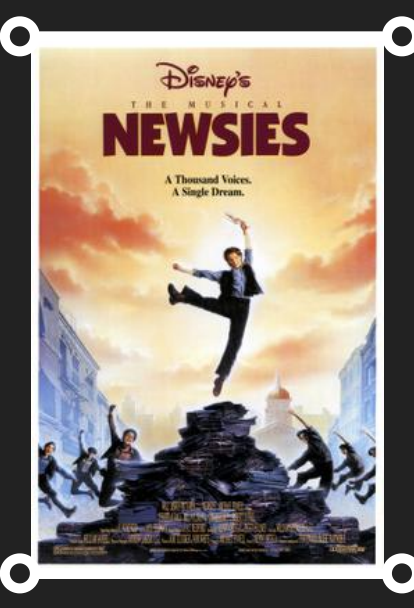

HOW

He have started to play small roles in TV series to time he won casiting for child role in Steven Spielberg's fim "Empire of the Sun". Young actor have got an award for the best chid role, what made his career to gaining steam.

But the real mile stone in his path was the role of Patric Bateman in fim "American Psycho".

Christian Bale has created absolutely disgusting and psycho character. This role was a key to many big oferts of playing, like "Dark khnight trilogy", "The Prestige", "Fighter", for the last one Bale got the oscar award.

WHY

Christian Bale is an great actor. Some of his characters are so well played that role of Patric Bateman from "American Psycho" makes many people disgusted about how awful person this character is.

He devotes himself to roles so much. Christian Bale is very famous by his body transformations. Bale has lost 30 kg to play in fim "The Machinis". Actor's weight on film plan was equal to 40 kg. After "The Machinist", Christian had only six mounths to build musculature for role of Batman. Actor's weight on film plan was equal to more than 80 kg.
