Dear Prosecutor!

I call on you to ensure the release of Aleksandra Skochilenko, who is being detained for criticizing Russia's war against Ukraine. Everyone has a right to freely express their opinions, including Aleksandra. All charges against her must be dropped and she should immediately and unconditionally be released from prison.

I also call on you to ensure that, pending her release, Aleksandra is held in conditions that comply with international standards, and she has access to adequate healthcare as well as the food she needs in relation to her medical condition. Aleksandra must also be protected from harassment by detention centre employees and her cellmates.

Yours sincerely,
